FINAL SITE MANAGEMENT PLAN TO RENDER OIL ISLAND (SITE 22)
UNATTRACTIVE TO WILDLIFE, SEAL BEACH, CALIFORNIA, DATED AUGUST, 2006

Dear Ms. Tamashiro:

The Department of Toxic Substances Control (DTSC) has reviewed the subject Site Management Plan (SMP) for Breitburn Energy Company's Oil Island facility. The SMP is prepared to enhance and formalize an existing program to render Oil Island unattractive to wildlife through a periodic program of vegetation control, pond water minimization, installation of bird repeller devices and inspection, record keeping and reporting procedures.

Upon review, DTSC found its comment on Section 5, regarding inspection, record keeping and reporting was adequately responded to and have no further comments. DTSC hereby approve the Final SMP.

If you have any questions, please contact Ms. Katherine Leibel at (714) 484-5446.

Sincerely,

Shelia Lowe, Unit Chief
Federal Facilities Unit B
Office of Military Facilities
Southern California Region
